Western Video Market

WOW! That’s all that can be said about the September 16th Western Video Sale!

People keep asking, “*When will these cattle prices stop climbing?*” — and I say, **take the money and run!** It’s time for producers to be in the driver’s seat of what they pour their blood, sweat, and tears into.

It’s time cattle producers finally get a leg up.
It’s time to eat American beef, made in America, by Americans.
Now more than ever — it is time.

We are incredibly grateful to the consignors who trust us to video their cattle, and to the entire Western Video Market crew for putting on a top-notch sale — time and time again — providing a trustworthy, quality avenue to market your cattle.

To the buyers who count on Crawford Livestock to connect you with the kind of cattle we know will perform — thank you.
And to those who stay behind and hold down the fort while we’re away at sales — we couldn’t do any of this without you.

From the bottom of our hearts,
Thank you.
