

Crawford Livestock Market

Market report for Friday, February 16, 2024. We sold 1100 head for the day, consisting of roughly 200 weighup cattle. 700 head of feeder cattle and close to 200 head of bred cows and heifers. The weighup market continues to stay strong with slaughter cattle being in high demand. Good feeding cows sold for \$111-\$119.50. High yielding cows going direct to kill brought \$98 to \$115.50. Thin, low yielding cows were \$83-\$96. Good, young cows were \$108-\$119. Big slaughter bulls were \$117.50-\$127.50. A nice run of heiferettes saw the top end bring from \$149-\$181.

We had several nice packages of feeder cattle after lunch despite the miserable day mother nature planned for us to endure. We had plenty of buyer participation in the seats and major internet support. Bred cattle sold very well with a tremendous amount of internet and in-house support on a very tight supply.

Many thanks to all the wonderful people that make our market true price discovery!
