

Crawford Livestock Market

Market report for Friday, September 20, 2024. We sold 541 head on the day with light runs of both weighup cattle as well as feeder cattle. A light test on all classes of weighup cattle this week with very few cows going on feed. The high yielding slaughter cows brought \$122-\$135. Lower yielding cows were \$108-\$122. Flawed gimp cows on a light test were \$105-\$110 on the top end. The slaughter bull market stayed steady with strong demand had the high bulls bringing \$150-\$159.50 and lower yielding bulls were not far behind at \$140-\$153.

A light run of feeder cattle on package trade sold well and pretty much cleaned up the country side for the season. We will take a "break" next week, that is with selling cattle, to focus on horses. Friday, September 27th at 9AM we will have a horse sale preview at Fort Robison *PARK STICKER REQUIRED*, then we'll come back to the barn and sell the horses at 2PM.

We want to thank our many consignors, buyers and crew for another successful sale, and look forward to kicking off fall fun here at Crawford Livestock~
